DURABLE COLLECTION

ITEM CODE: LHCF SERIES

HOLLOW OR SOLID STAINLESS STEEL LEVER HANDLES WITH HYDRO-DIP CARBON-FIBER

Features:

• Full solid or hollow stainless-steel lever handle set with return spring, mounted on a lever rose with matching cylinder rose. Both roses feature concealed fixing with an easy-click mounting system.
• Material: Stainless steel EN 1.4301 (SUS304), with optional upgrade to EN 1.4401 (SUS316).
• Door thickness: Up to 50 mm. For thicker doors, specify requirements when ordering.
• Option: Multiple hydro-dip carbon-fiber design film variations available.
• Standard finish: Satin Stainless Steel (SSS) combined with hydro-dip carbon-fiber pattern. Additional finishes available upon request.
